RESEARCH INTERESTS

- Understanding volatile cycles in the Earth's mantle through mineral and fluid inclusions in diamonds.
- Volatile budget of the lunar mantle, origin of different types of basaltic volcanism on the Moon, and evolution of the lunar interior.
- Combining experimental petrology and non-traditional isotope geochemistry to understand formation, differentiation, and evolution of Earth and other planetary bodies.
- Developing and improving column methods and mass spectrometry (MC-ICP-MS) techniques to enable non-traditional isotope measurements of small natural specimens and low-concentration experimental samples.
- Diffusion, kinetics and geospeedometry.

ACADEMIC POSITIONS

- **Department of Earth, Planetary, and Space Sciences, UCLA** — Los Angeles, CA
  Assistant Profesor — 2023 -
- **UCLA Meteorite Museum** — Los Angeles, CA
  Meteorite Committee member — 2024 -
- **Earth and Planets Laboratory, Carnegie Institution for Science** — Washington, DC
  Carnegie Postdoctoral Fellow (Mentors: Anat Shahar, Steven B. Shirey) — 2017 - 2022
- **Department of Earth and Environmental Sciences, University of Michigan** — Ann Arbor, MI
  Graduate Student Researcher, Experimental Petrology Lab — 2011 - 2017
  Lab Assistant, Electron Microbeam Analysis Lab — 2014 - 2015
  Graduate Student Instructor — 2013 - 2017
- **School of Earth and Space Sciences, Peking University** — Beijing, China
  Undergraduate Researcher, Institute of Mineralogy and Petrology — 2008 - 2011

EDUCATION

- **University of Michigan** — Ann Arbor, MI
  Ph.D., Earth and Environmental Sciences — 08/2017
  Dissertation: Cu diffusion in silicate melts and melt inclusion study on volatiles in the lunar interior.
  Advisor: Prof. Youxue Zhang
- **Peking University** — Beijing, China
  B.S., Geoscience, School of Earth and Space Sciences — 07/2011

AWARDS AND HONORS

- **Society of Hellman Fellow** — 2024
  Department of Earth, Planetary, and Space Sciences, University of California, Los Angeles, CA
- **John Dorr Graduate Academic Achievement Award** — 2018
  Department of Earth and Environmental Sciences, University of Michigan, Ann Arbor, MI
- **Carnegie Postdoctoral Fellowship** — 2017
  Geophysical Laboratory, Carnegie Institution for Science, Washington, DC
- **Scott Turner Award (three times)** — 2014, 2015, 2016
  Department of Earth and Environmental Sciences, University of Michigan, Ann Arbor, MI
- **Rackham Summer Fellowship** — 2015
  Department of Earth and Environmental Sciences, University of Michigan, Ann Arbor, MI

- **First Prize, Michigan Graduate Union poster competition** 2015
  University of Michigan, Ann Arbor, MI
- **Rackham Travel Grant (twice)** 2014, 2015
  University of Michigan, Ann Arbor, MI
- **May Fourth Scholarship** 2009, 2010
  Awarded to top 10% of the students, Peking University, Beijing
- **Kwang-hua Scholarship** 2008
  Awarded to top 10% of the students, Peking University, Beijing

PROPOSALS, GRANTS AND FELLOWSHIPS

- **"Behavior of Moderately Volatile Elements During Silicate Evaporation," NSF, Division of Earth Sciences ($431,384), PI** 2025 - 2028
  Department of Earth, Planetary, and Space Sciences, UCLA
- **"The Fate of Earth's Plates: Sublithospheric Diamond Constraints on Recycling in Earth's Mantle Transition Zone", NSF, Division of Earth Sciences ($501,000)** 2020 - 2023
  Collaborator with PI S. Shirey, PN role: development and application of Fe isotope techniques for diamond inclusions
  Earth and Planets Laboratory, Carnegie Institution for Science
- **Carnegie Postdoctoral Fellowship, $140,000 for stipend and $6,000 for research** 2017 - 2019
  Geophysical Laboratory, Carnegie Institution for Science
- **Scott Turner Award for research (Three times), total budget $9,000** 2014 - 2016
  University of Michigan, Ann Arbor
- **Rackham Summer Fellowship, $8,000 for stipend** 2015
  Rackham Graduate School, University of Michigan, Ann Arbor
- **Rackham Travel Grant, $800 to $1,200 each** 2014, 2015
  Rackham Graduate School, University of Michigan, Ann Arbor

BEAMTIME AWARDS AT DOE FACILITIES

- **GSECARS GUP-80140:** *Characterizing multi-phase microinclusions within sublithopsheric diamonds from Juina, Brazil*, **Participant (PI Czas), total shifts awarded: 12** 2022
  Advanced Photon Source, Argonne National Lab
- **GSECARS GUP-42672:** *Mechanism and kinetics of oxygen fugacity change in silicate melts: a XANES study on iron reducing profiles in silicate melts*, **PI, total shifts awarded: 12** 2015
  Advanced Photon Source, Argonne National Lab

INVITED SEMINARS

- Department of Earth Science, University of California in Santa Barbara, CA 01/2025
- School of Earth and Space Exploration, Arizona State University, AZ 04/2024
- Department of Earth and Environmental Sciences, University of Michigan, Ann Arbor, Michigan 04/2024
- Palos Verdes Gem & Mineral Society, Rolling Hills Estates, CA 07/2023
- SCRIPPS, University of California in San Diego, CA 06/2023
- Division of Geological and Planetary Sciences, California Institute of Technology, Pasadena, CA 04/2023
- Department of EPSS, University of California in Los Angeles, CA 03/2022
- Geology Department, West Washington University, Bellingham, Washington 11/2021
- Department of Earth and Environmental Sciences, University of Michigan, Ann Arbor, Michigan 10/2021
- Natural History Museum, London, England 03/2021
- Center for Meteorite Studies, Arizona State University, Tempe, Arizona 11/2020
- Department of Geology, University of Maryland, College Park, Maryland 03/2020
- Smithsonian National Museum of Natural History, Washington DC 02/2020
- Lamont-Doherty Earth Observatory, Columbia University, New York 09/2019
- Guangzhou Institute of Geochemistry, Chinese Academy of Sciences, Guangzhou, China 05/2018
- The Institute of Geology and Geophysics, Chinese Academy of Sciences, Beijing, China 04/2018
- School of Earth and Space Sciences, University of Science and Technology of China, Hefei, China 03/2018
- School of Earth Sciences, China University of Geosciences, Wuhan, China 03/2018
- Department of Geology, University of Maryland, College Park, Maryland 02/2018
- School of Earth Sciences and Engineering, Nanjing University, Nanjing, China 07/2016

FIELD WORK

- Andes Mountain, Atacama Dessert and porphyry-type ore deposits, Chile (2 weeks) 2015
- Advanced Ore Deposits course field trip, Upper Peninsula, MI (1 week) 2014
- Keweenaw Peninsula, Northern Michigan, sedimentary petrology, ore deposit formation, MI (1 week) 2014
- Southern Dabie Mountains field trip for undergrad research, eclogite sampling, Anhui, China (1 week) 2010
- Mountain Wutai and Mountain Heng field trip, Hubei, China (2 weeks) 2010
- Regional geological mapping, Xingcheng, Liaoning, China (2 weeks) 2009

TEACHING EXPERIENCES

- EPSS 103A, Igneous Petrology 2025
- EPSS 107/207, Isotope Geochemistry 2023, 2025
- EPSS 109/209, Isotope Geochemistry 2023, 2024
- Mini Courses, Graduate Student Instructor Winter 2017
- Principles of Geochemistry, Graduate Student Instructor Winter 2016
- Principles of Geochemistry, Graduate Student Instructor Winter 2015
- Introduction to Linux Computation, Graduate Student Instructor Fall 2014
- Introduction to Physical Geology, Graduate Student Instructor Winter 2014
- Principles of Geochemistry, Graduate Student Instructor Fall 2013
- Introduction to Linux Computation, Graduate Student Instructor Winter 2013

LEADERSHIP EXPERIENCES AND PUBLIC SERVICE

- At-Large Committee member, Extraterrestrial Materials Assessment Group (ExMAG) 2024 - 2026
- AGU Fall Meeting Committee member, Study of the Earth's Deep Interior 2022 - 2025
- LPI Small Sample Handling Workshop, Selection Committee, member 2024
- Lunar Exploration and Analysis Group, Science Goal Committee, member 2024
- Session convener and chair at Goldschmidt 2022 07/2022
- Panelist, NASA proposal review panel 2020, 2021
- Invited panelist, virtual career panel for international students in Earth sciences, *University of Michigan* 12/2020
- Volunteer at *Black in Physics* virtual job fair 11/2020
- Representative of *Carnegie Institution Postdoc Association* 2017 - 2019
- Attending scientist at donor event "Lunch with a Scientist", *Carnegie Institution for Science* 07/2019
- Session convener and chair at AGU 2018: *Volatile Budgets and Cycling Through Planetary Evolution* 12/2018
- Volunteer for *USA Science and Engineering Festival*, Washington DC 04/2018
- Judge for Dwornik Student Presentation Award at *Lunar and Planetary Science Conference* 03/2018
- President of *Peking University Alumni Association in Ann Arbor* 2013 - 2015
- Referee for *French National Research Agency (ANR), Geology, Contributions to Mineralogy and Petrology, Earth and Planetary Science Letters, Geochemica et Cosmochimica Acta, Minerals*
